## Goals - Lead Score Achieved@

This article applies to: Max Max Classic

You can configure automation to take place when a contact's lead score increases or decreases to a specific number. Once the score has been reached, the goal is satisfied and the automation will continue.

1. Drag the Lead Score Achieved goal to the canvas.

2. Optional: Double-click the name below the icon to give it a custom name.

- 3. Click Save
- 4. Double-click the goal or single click it and choose View and edit
