Customize my email signature 🗞

In infusionsoft, you can create either a plain text or HTML email signature.

Edit your signature

1. Hover over the profile icon and click Edit My Profile.

2. On the bottom-right side of the page, you'll see the **Email Signature** section. You can see what your signature looks like when it is merged into emails. You can also use the fields on this page to modify the information that appears in your email signature and upload an image of your business logo.

Use legacy to edit your text signature using HTML

1. Navigate to Admin and click **Settings**.
