

Campaign Sequence - Assign Owner

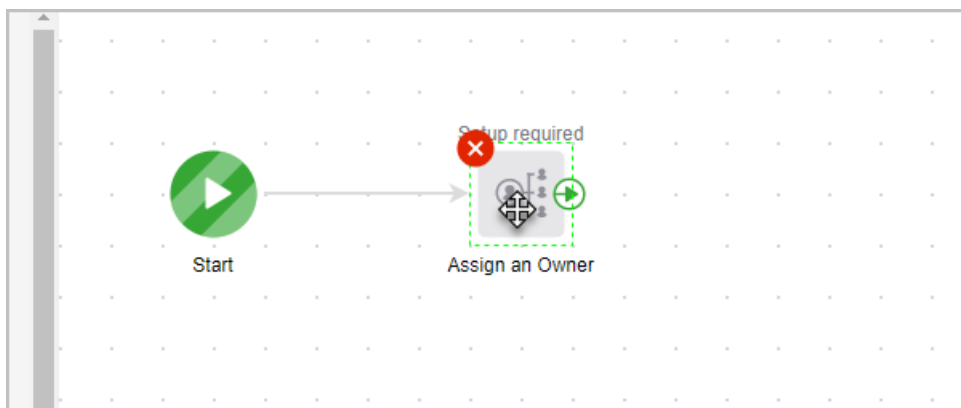

This article applies to:

The **Assign an Owner** process snippet allows you to assign or reassign the owner of a contact record as a step in a campaign sequence.

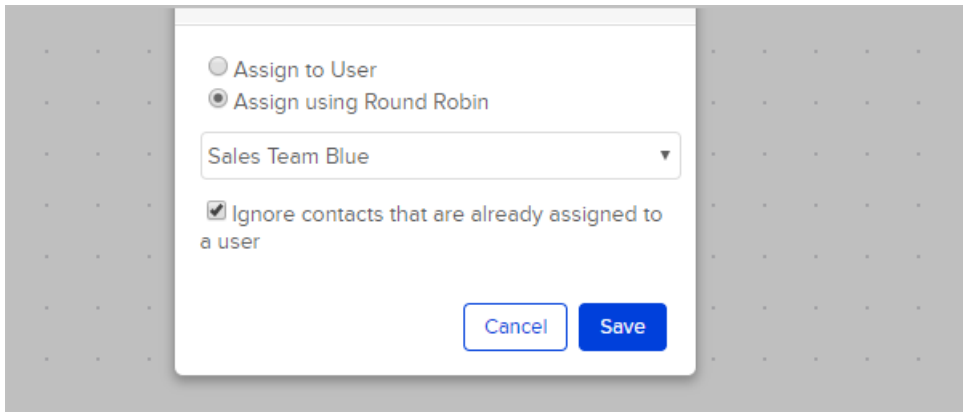

1. Drag and drop an **Assign an Owner** process snippet onto the canvas.

2. Double-click it to configure the settings.

3. To configure owner assignment...

- **Assign to User:** This option allows you assign the contact record to a specific user in your application.
- **Assign using Round Robin:** A [round robin](#) is a set of distribution rules based on numeric logic.

4. Click **Save**.

5. You are now ready to publish your changes.
