

Setup Payment Collection Invoice

This article applies to:

Enable payment collection on Invoices

The invoices will work with all order types: online orders, unpaid orders, or manual orders. To enable this feature:

1. Go to **E-Commerce > Settings**
2. Click on **Orders**
3. Under the **Invoice** section, you will see a new **Order Settings** option allowing you to enable this new feature.

Business Number: N/A ?

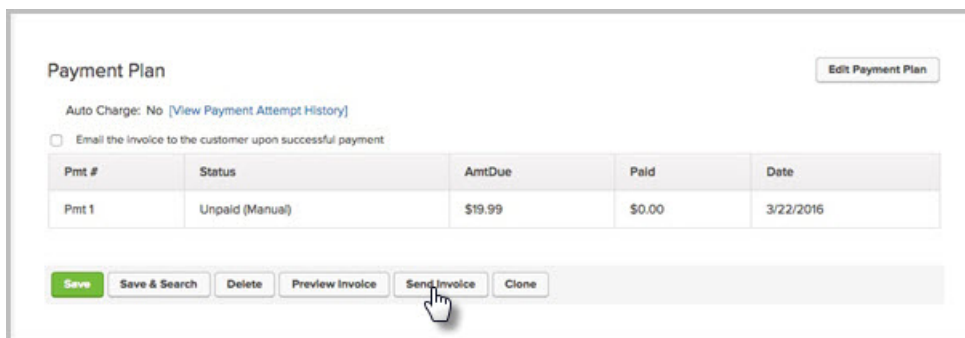

Invoice Title: Confirmation ?

Tax Label: Sales Tax ?

4. Click **Save**

As an example, we'll show you the workflow of sending an invoice from a manual order.

When you are ready to send the invoice from a manual order, click the **Send Invoice** button at the bottom of the order record and follow the instructions below:

Payment Plan Edit Payment Plan

Auto Charge: No [\[View Payment Attempt History\]](#)

Email the invoice to the customer upon successful payment

Pmt #	Status	AmtDue	Paid	Date
Pmt 1	Unpaid (Manual)	\$19.99	\$0.00	3/22/2016

Save

5. **Payment Options:** Choose whether to send the invoice with or without an online payment option.

6. Modify the **To** and **Subject** line if you wish.

7. Edit the open text fields

Pro Tip: The logo is pulled from Nav > Admin > Branding Center > Logo Tab > External Pages Logo

4. Click **Send Invoice**

5. Your customer will receive the invoice email with a button labeled, **View my Invoice**. They can view the invoice and its current status (paid or unpaid) at any time in the future.

6. At the bottom of the online invoice, there will be an option to **Pay Now**.

Pay Now

Note: If you set the invoice date to a date in the future, the **Pay Now** button will not show until the actual invoice date. i.e., The payment due date is set for 10/4/2019 and the email is sent on 10/3/2019. On 10/3/2019, the **Pay Now** button will not show, but on 10/4/2019 it will!

1. Your customer will enter their payment information and click **Submit**.

Due Now: \$19.99

Cancel Submit

2. Upon successful payment, your customer will be redirected to an Invoice Paid success page.

3. Your customer will then receive an order receipt.

Pro-Tips!

- Invoice templates are mobile responsive, meaning they will maintain a professional look on all devices - like phones and tablets.
- Invoice emails will only allow you to edit the open text fields.
- For a **Receipt** to be sent you must enable under E-Commerce > Settings > Orders > "Email receipts/invoices upon successful payment?"

Invoice - Default Fields

There are options available that will allow you to save default fields for Invoices and Receipts.

You can create and save:

- Default "From" Email Address
- Default Email Subject
- Default Email Body
- Default Email Closing
- Terms & Conditions

Invoices

Default From Email Address:

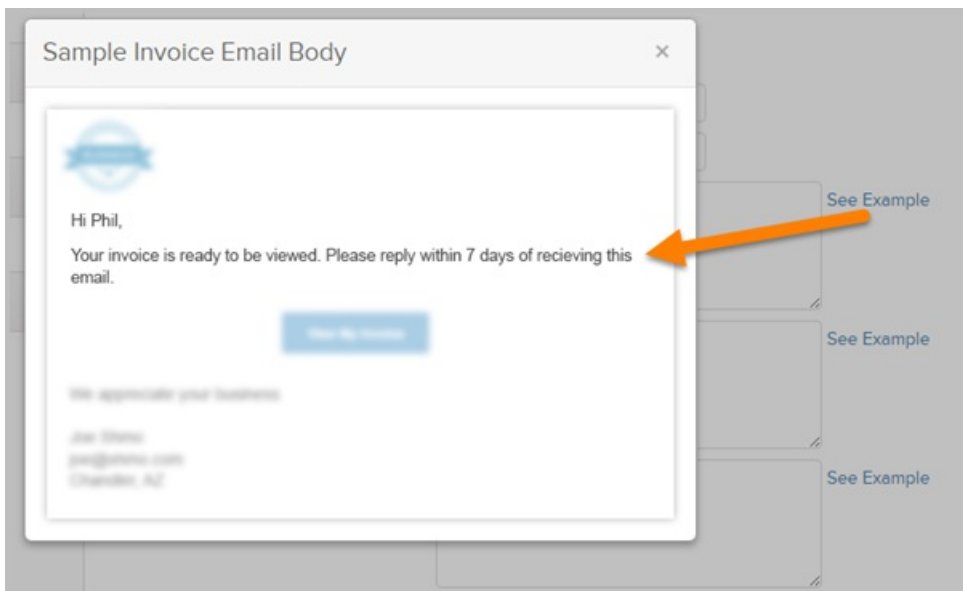

Default Email Subject:

Default Email Body: [See Example](#)
*Supports plain text only

Default Email Closing: [See Example](#)
This section can be used for additional content and/or global signatures. If left blank, this section will default to the user's signature. *Supports plain text only

Terms and Conditions on Invoice Page: [See Example](#)
*Supports plain text only

Click on the **See Example** link next to a section to see where it lies on the Invoice or Quote

Invoice - International Tax Settings

As an international customer, you can use Max Classic Invoices AND be compliant with your government's invoice tax requirements. There is a setting to add your tax identification requirements.

Enable payment collection on Invoices: Yes No ?

Tax Identification

Business Number: VAT ?

Invoice Title: Tax Invoice ?

Tax Label: VAT ?

Invoices

Available Business Number tax type options:

- ABN
- BN
- EIN
- VAT

Invoice Title and Tax Label will automatically update based on your selected Business Number tax type. However, these fields are editable so you can customize to your specifications as needed.

7/14/2016	£20.90

VAT	£1.90
INVOICE TOTAL	£20.90
OUTSTANDING BALANCE	£20.90
PAYMENT DUE TODAY	£20.90

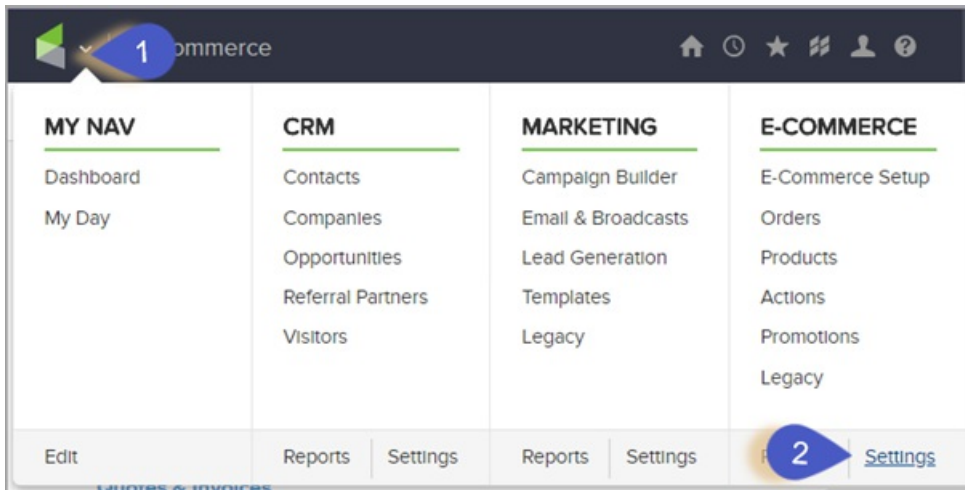

The total price includes VAT

These are my terms and conditions.

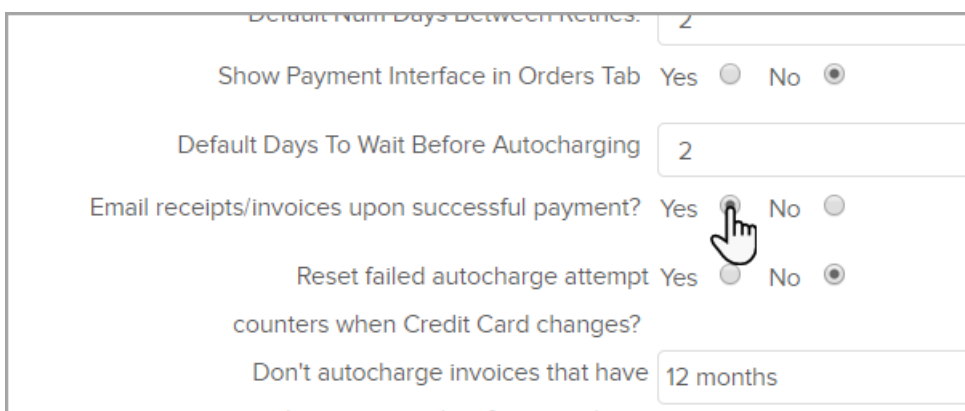

Receipts

There are a couple settings that will trigger a Receipt when a purchase is made. When an order is paid for through an invoice a receipt can be sent confirming payment.

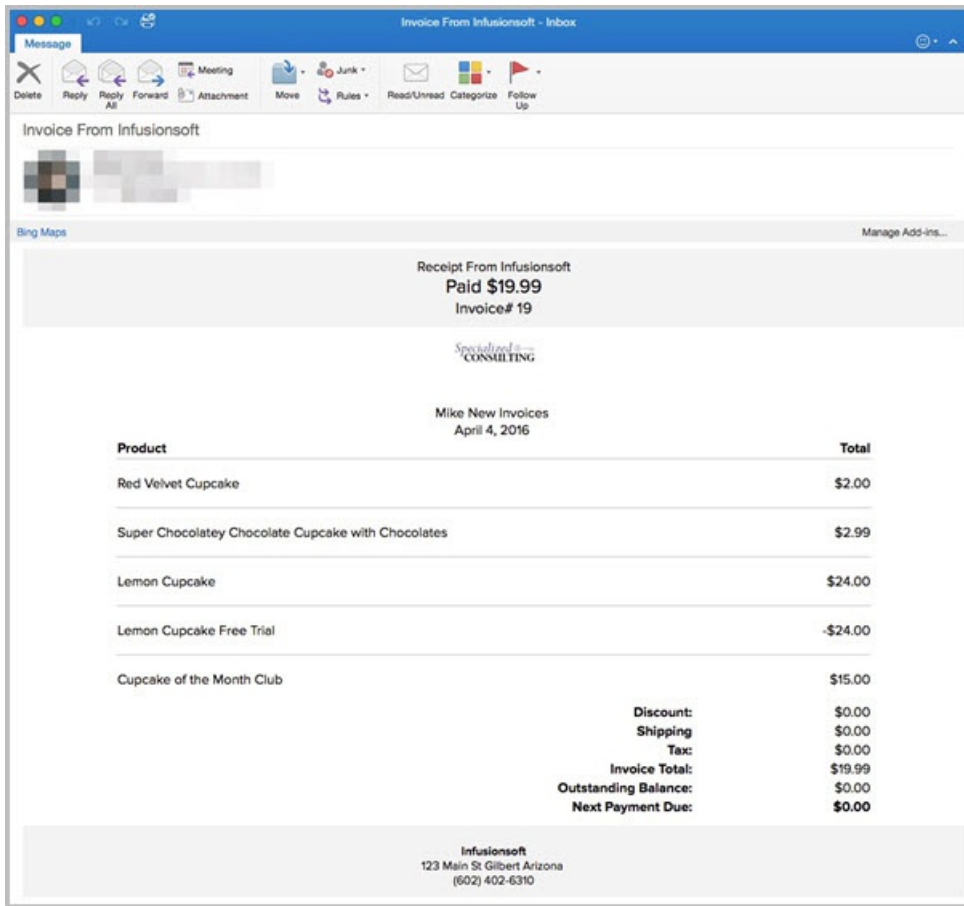

1. Go to E-Commerce > Settings > Orders

2. Check Yes next to "Email receipts/invoices upon successful payment?"

3. This will then send this Receipt when a payment is made through an Invoice.

Note: When you choose **Enable Payments** collection on invoices, you can no longer use legacy custom invoices! [Click here](#) to learn more.
