

Legacy Landing Pages - Managing Color 🔗

This article applies to:

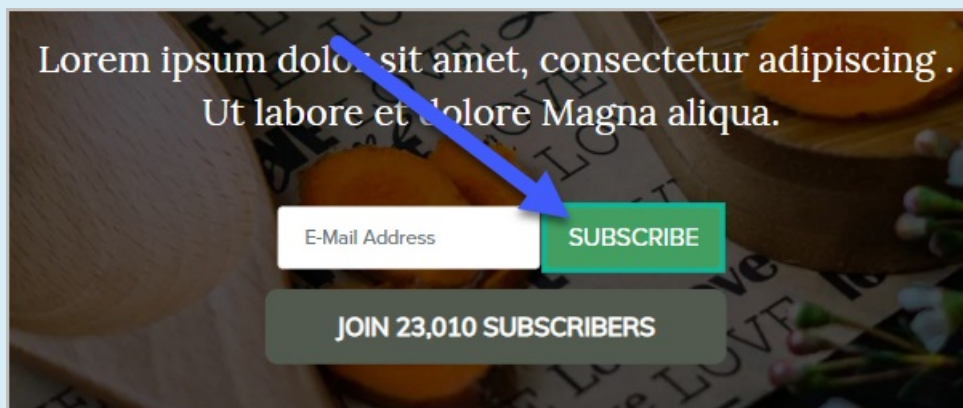

[Max](#)

[Max Classic](#)

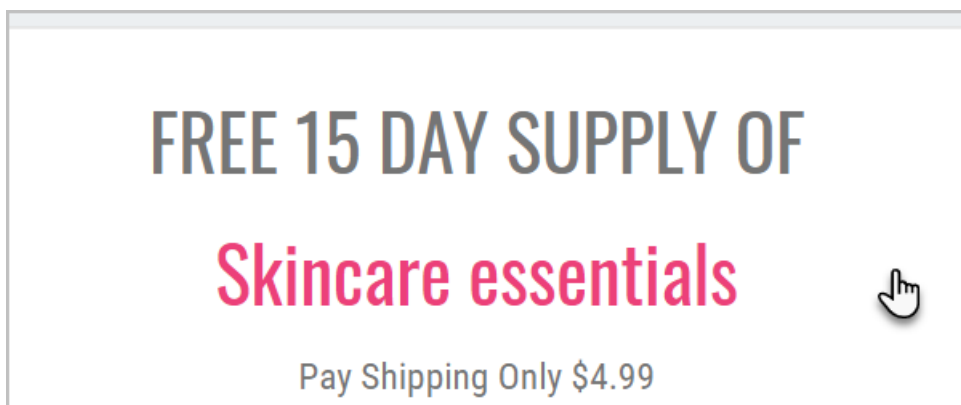

Note that you can change the background of a **Section**, but not an **Element** within the section.

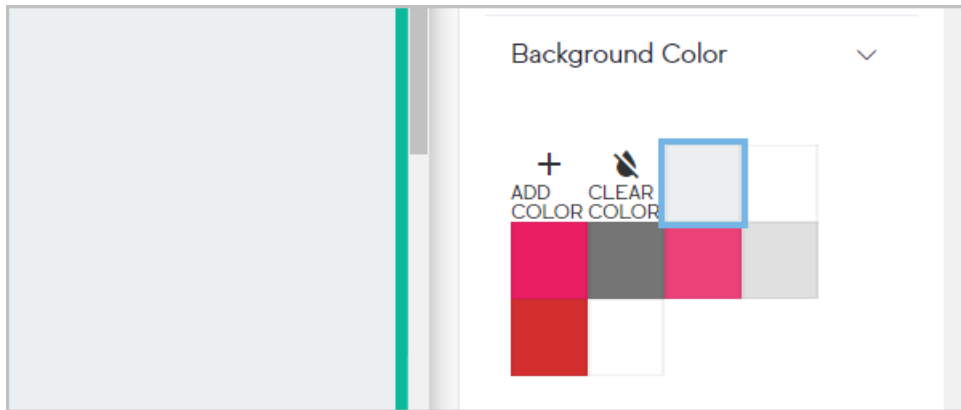

Note that button text colors cannot be manually changed; the button text color will automatically update based on the color of the button for optimal contrast.

1. Click in the section

2. Select the background color in the panel to the right of the page

3. You have the option to:

- Choose a color from the palette
 - Change a color on the palette by hovering over a color and clicking the **Edit** button.
 - Click the **Add Color** button to add a new color to the palette.
 - **Clear Color** will reset the color of the element.
-
