

Legacy Landing Pages - Social share settings

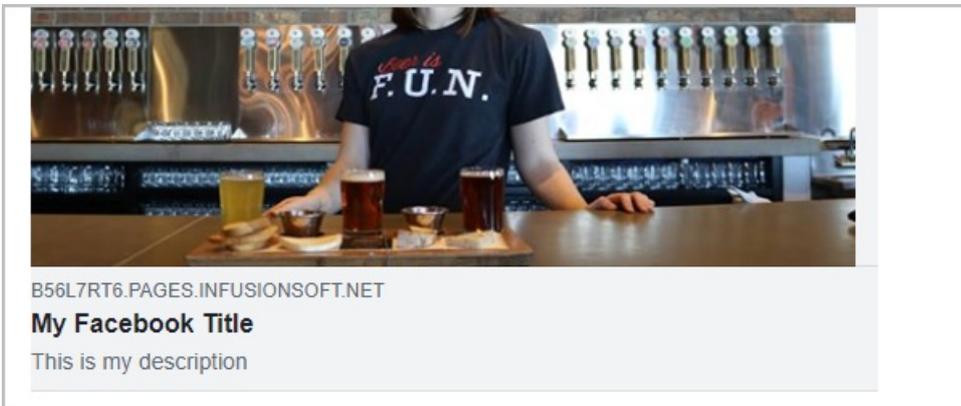

This article applies to:

[Max](#)

[Max Classic](#)

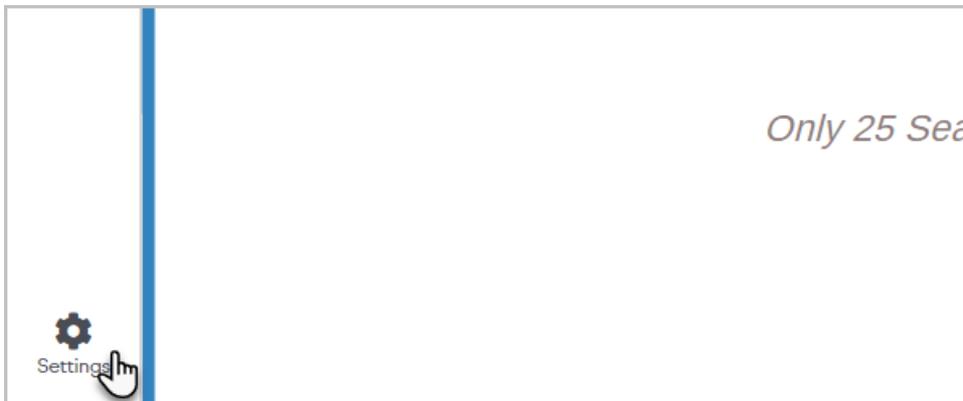

The **Social Share Settings** in the landing page builder gives you a simple editor to format your landing page preview without the need to know Facebook's [Open Graph](#) markup language. A social share has four components:

- Image
- URL
- Title
- Description

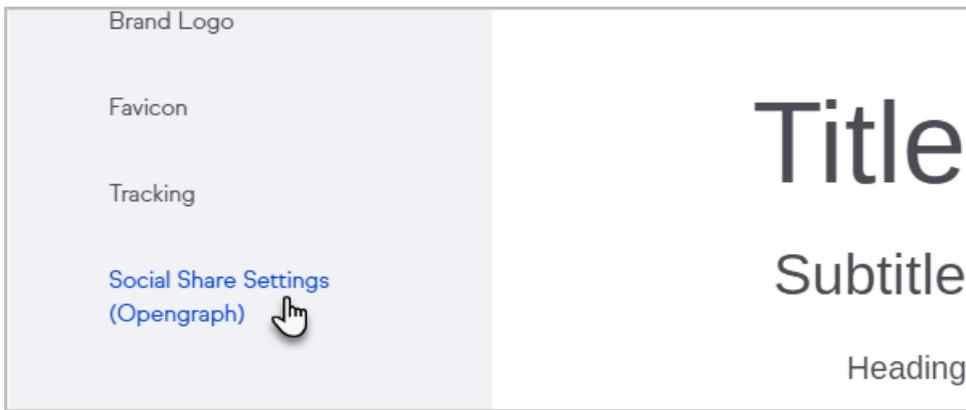

Pro-Tip! [Click here](#) to view Facebook's best practice guide in order to learn things like how to optimize your image for the highest viewing quality!

1. To view your current Facebook Share, navigate to the landing page builder and open the **Settings** menu

2. Click Social Share Settings (Opengraph)

3. Enter a title, URL, and description

A screenshot of the 'Social Share Settings (Opengraph)' form. It has a title bar at the top. Below are three input fields: 'Title:', 'URL:', and a larger text area with the placeholder text 'Add a short description that will show up in social websites like facebook when you share'. The form is enclosed in a double-line border.

4. Click **Add an image** to select an image from your Company Images or upload one from your device

A screenshot of the same form as above, but with a green button labeled 'Add an image' at the bottom left. A mouse cursor is hovering over the button. The text area above still contains the placeholder text.

5. Click **Done**
 6. Publish your landing page
 7. Share your landing page link on social media
