January Update 2020 | Infusionsoft by Keap ⚯

January 2020 Product Updates

We released exciting new features for Infusionsoft and Keap in January. Watch to learn about all the new features and how they can grow your business.

Dynamic content: The next step in personalization

Make your content feel personal and timely with the introduction of dynamic content. Accessible from anywhere you draft emails, dynamic content works based on conditions you set, like the date you send an email or publish a campaign. Learn more.
