Campaigns update: Send an invoice if there's no credit card on file

Getting paid is important, and now you have more options, especially if you don't have a credit card on file for a client. Look for a new invoicing option in the "Create Order" process in the Campaign Builder. [Learn more.](#)

Bug Fixes

- Orders paid through PayPal previously failed to recharge after initial subscriptions and payment plan setups. ([Known Issue 1883672](#))
 - There wasn't a submit button present for the "I will pay later" option on quotes. ([Known Issue 1931418](#))
 - When a user submitted an internal form using the "quick add" function, it was defaulting to display as if the "system" submitted the form. ([Known Issue 1914153](#))
-
