Spring Cleaning

The team maintained its commitment to quality this week with bug fixes across the board. We addressed some **email sync** issues, fixed some **dashboard widget** sharing settings, and cleared up an issue for **Legacy Marketing Email Templates**.

Bug Fixes

- When viewed within Infusionsoft, some emails synced into Infusionsoft using Microsoft Email Sync appeared blank. ([Known Issue 1881782](#))
 - After applying changes to the sharing settings on Custom Statistics dashboard widgets, the share icon disappeared from the widget. ([Known Issue 2020203](#))
 - In Legacy Marketing Email Templates, clicking the "Save & Send Test" button sent the email template to the address in the "To:" field instead of the contact in the "Test this Email" section. ([Known Issue 1978860](#))
-
