This week's bug fixes plus some exciting updates on the horizon

We did some work under the hood this week, fixing up back-end bugs and a few that were impacting **Orders** with specific totals and **Contact search**. We're also cooking up some exciting updates that will be ready to share in the coming weeks. Stay tuned.

Bug Fixes

- During payment for orders with a total between 64.99 and 99.99 that ended in .10, .60, or .99, the payable balance displayed was 0.01 less than the expected value. ([Known Issue 2010606](#))
 - In the Contact search, results and exports were showing escaped text, for example " instead of a quotation mark. ([Known Issue 1954230](#))
-
