## Keap Payments now WePay, a Chase Company

We've partnered with WePay since 2015 to bring customers a reliable payment processing option. This week we updated branding throughout Infusionsoft to reflect the WePay brand. We want to give our customers greater confidence that their business transactions are safe with Chase's best-in-class fraud and risk management systems, online fraud detection, and lower decline rates. ## Bug Fixes

- The first name, last name, and phone number default merge field values (such as "friend" for first name) were not populating in campaign and broadcast emails. ([Known Issue 1953040](#))
- When Campaign Builder's "Create Appointment" process referred to a custom date or time field and the application and user time zone was set to anything other than EST, appointments were created with the wrong date and time. ([Known Issue 2057995](#))
- A widget's failure to load resulted in some users being unable to reach their Dashboard. ([Known Issue 2033162](#))
- Mobile responsive order forms allowed a customer to press the Submit button multiple times resulting in multiple orders.
