# Order form terms 🔗

This article applies to:

[Max Classic](#)

You can make sure your clients are fully informed before making a purchase with the new terms section of mobile-responsive order forms. You also have the option of including a required checkbox for clients to acknowledge your terms, which will display just above the payment button at checkout.

Terms can **only** be used on mobile-responsive order forms

1. Navigate to your order form or create a new one
2. Click the **Terms** tab

3. Choose whether or not customers must agree to the terms
4. Enter the terms to display

5. Click **Save**

> **Note:** You can include a link in your Terms section by using very basic HTML. You can use this code as a template for creating a link: TEXT Be aware that you must include the full http:// or https:// before the destination URL link. You can learn more on how to create hyperlinks HERE.

Your terms will display on the order form during checkout.
