Introducing: Analytics

With Analytics, learn more about your business with less effort. Find the data you need by filtering contact and email data by things like tags, campaigns and date ranges. Then dig in to linked reports within your app, so you can take action when needed. [Learn more.](#)

Payment forms update: Increased security to prevent bot attacks

Your payment forms now automatically include protection to help detect and block traffic from bots that attempt to make unauthorized purchases. You can have increased confidence in the protection of your orders and payments.
