Bug fixes

- The results on the Calendar Items widget would stay the same when selecting a specific user or date in the "View for" drop-down. ([Known Issue 2225137](#))
 - Adding quotation marks into the name of a task outcome caused column headers to disappear, prevented the add task outcome button from working, and hid previously created outcomes.
 - Buy Now links with payment plans sent from Opportunity records did not restrict a customer's merchant account options as set in the payment plan's settings.
-
