CRM update: Search by Tag Category

Power your searches with the addition of the “Tag Category” filter for your Contacts search. The ability to search at the tag category level allows you to quickly perform highly specific, accurate searches, eliminating the need to manually select each tag you do or don’t want included in a search.

Bug fixes

- Instead of receiving the requested Affiliate ID from the REST Opportunities endpoint, the API returned “Affiliate Id is invalid”. ([Known Issue 2367021](#))
-
