Campaign Sequence - Move opportunity %

This article applies to:

Max Classic

Automate your business with the "Move opportunity" process in the Campaign Builder. Using this process means you no longer need to manually move your opportunities from stage to stage, so you can spend more time closing deals instead of maintaining them.

Move Opportunity	Save
ummary a contact reaches this action and has an opportunity you can use this action to utomatically move that opportunity to another stage.	
- Move to stage	~
- If one contact has multiple opportunities	

Warning

Opportunities will not be moved into a Won or Lost pipeline stage if that stage requires a Won or Lost reason to be selected.

Opportunities will not be moved out of stages with required checklist items unless the items are checked before the campaign action items trigger.

FAQs

What if a contact has more than one opportunity?

You can choose from the options of moving All, Most recently updated, Most recently created opportunities.

What does the check box of "Don't move opportunities that are in won/lost" mean?

If the contact has any opportunities that are currently in a stage that you have set as a Won or Lost state (CRM>Settings>Opportunity Defaults), those opportunities will not be moved by your automation. This option is selected by default but can be disabled.
