Bug fixes

- Email reporting within campaign sequences was not including emails built with the new builder
 - Campaigns with quotes inside decision diamond rules could not be published and existing campaigns were broken
 - Email links did not update when a campaign link was updated
 - Email status didn't update when multiple email address fields were on the same form
 - Receivables report was failing to load results
 - Campaign reporting was showing inaccurate results for contacts that were active in the given date range
 - Decision diamond temporarily ignored all of its rules
 - Payments for subscription cycles were triggering the purchase goal when added by a user
 - Click Lead Score activity disappeared off contact records
-
