Add additional contacts to your plan@

This article applies to:

You can now more easily add contacts to your subscription when you have exceeded your contact record limit. If your account has exceeded its contact limit, you will see a notification in the contact section of an app. The notification will say "You've hit a contact limit on contacts" and allow you to quickly add more contacts to your subscription.

1. After exceeding your contact limit, you will see the following dialog
