Update Order Form and Shopping Cart Theme for Keap Pay@

- 1. Update your Order Form Theme
- 2. Update your order forms with this theme
- 3. Update your Shopping Cart Theme
- 4. Update your Spiffy theme to enable Keap Pay to accept payments

Update your Order Form Theme

If you are processing payments via Keap Pay, you need to review the themes that are active on your Order Forms. Themes created before April 2023 will not work with Keap Pay. You will need to create a new theme and then activate it on your existing order forms.

Create a new theme

1. Navigate to the Sales Page

G Home	Contacts 7 Type to filter by tag		ខេច រ
	0 new contacts	17 🖉	L
My day \$/ Sales	In the last 30 days ~	Total contacts	A
GA Marketing 47	Empil		
Automation	LIIIdii		

2. Navigate to the Ecommerce Settings

3. Click Order Form Themes

4. Create a new theme

k Q Search	Order Form Themes BA	ck to E-Commerce Setup
Home Contacts My day		zeate a New Theme
sales	Keep Pey MB Edit	

5. Select your theme layout, choose from the theme templates and click "Use this theme." Any of the theme layouts can be chosen. NOTE: If you use Spiffy to change the look of your Keap forms, do not use the Mobile Responsive layout as that will break the Spiffy code. See below for more on Spiffy.

6. Name your theme

Mobile Responsive	One Column	Two Column	
choose a Theme		Choose a name for your custom theme	×
		Name: My New Theme Cancel	Save
Quick Checkout Use thi	s theme		

7. Update the theme with your company logo, if desired

k (+)	Brand new theme «Book to Order Form Thomas Images HTML Areas Laters Edit COS	
от Ф., мазста ↓ <i>Сац</i>	Consumy Logo Top Borner Custom Tees	
Z/ islas G ² stating	Delete	
47 presention s 1 pearts	Staresto	

IMPORTANT NOTE REGARDING THE HTML AREAS: If you enter your own HTML code into the theme's HTML areas we advise you to test the order form before sending it to your customers.

Update your order forms with this theme

1. Navigate back to the Ecommerce Settings page and click Order Forms

2. Identify order forms with the older themes

Sales Ontomutities	Order	r Form	Back to E-Commerce Setup			
Orders	Main Search		Search			
Subscriptions	28				Action	16 v per pa
Order forms						
Ecommerce setup	□ ¥	M	Formaane	Products	Theme	Preview
Products and services		154	\$0	1	New theme for 2024	Preview
elated shortcuts		107	2K	1	MB SE	Presing
Settings						
leyment dashboard		105	ж	1	MD SE	Preview
leposit dashboard						
		103	4K	1	MB SE	Previow
		79	ACH TEST 3	1	MB SE	Preview
		117	Amazing Product	1	MB SE	Preview

3. Click into one of these order forms and find the Theme tab.

k e	← Sales	\$0 + Back to Order Form List	
Q Search	Opportunities		
G.	Subscriptions	Add Hoducts Ineme HIMLAreas Ierms Indik tou rage Settings	unis
<u></u>	Order forms	Add Products	
Contacts	Ecommerce setup	Product Type to search X	
Hy day	Products and services	Add Product	
2	Related shortcuts	Products on this order form	
Sales	Settings	Name Price Type	
\$	Payment dashboard		

4. Locate the theme you created near the bottom of this page and click "Make Active"

13	Jewings	Element Test 2	Make Active	Elements Test 3	Make Active	MB SE	Maio
Nariating 47 Automation 11 Reports	Payment dashboard Deporit dexhboard	Petra Esperts	-			Manne Stransformer	
		Stipe ()	Marce Active Make Active Make Active Make Active Make Active Make Active	Keng Pay MB	Make Active	New theme for 2	L. Maio
0			-				
•		Dista New Cristia	State Active				

NOTE: Making a new theme active will remove the HTML content in the HTML areas. We strongly recommend copying any code you have entered into the HTML areas tab.

5. A pop up informs you that changes to the HTML area will be lost. Click OK when ready to proceed

6. You will now see that new theme under the "Default Theme" heading

+	Sales	\$0	« Back to O	rder Form	List			
	Opportunities							
	Orders	Add F	Products	Theme	HTML Areas	Terms	Thank You Page	Settings
	Subscriptions	Defeut	Thomas					
	Order forms	Default	Theme					
	Ecommerce setup		(R. State) State strengt Support and strengt					
	Products and services				:			
	Related shortcuts			-	-			
	Settings			80.00	-			

7. You can re-enter the changes made in the HTML areas of the form

IMPORTANT NOTE REGARDING THE HTML AREAS:

If you enter your own HTML code into the theme's HTML areas we advise you to test the order form before sending it to your customers.

Helpful workaround for updating multiple order forms at the same time

Keap users that have multiple order forms connected to the same theme can save time when updating the theme by following these steps.

- 1. Create the new theme that will be used on the order forms
- 2. Set the new theme as the default by clicking on the "Use Theme" link
- 3. Delete the old theme within your Keap application

When a theme is deleted, the Order Forms connected to that theme will then be connected to the default theme in the app.

Update your Shopping Cart Theme

1. Go to your Ecommerce setup

2. Click into Shopping Cart Themes

ut Order Forms 🖄	٢	Manage your cart checkout,	>
Plans line purchase to be ultiple payments	<>	Shopping Cart themes Pick from existing themes or create your own custom theme	>
t Payment Plans 🖸		Learn about Shopping Cart 🖸	

3. Click Create a New Theme

 Select the type of theme you want and click "Use this theme." NOTE: Both One Column and Two Column layouts can be chosen. You may also select any of the themes listed

5. Choose a name for your custom theme and click Save

6. Customize your theme

k Q Search	Keap Pay 2024 « Back to Shopping Cart Themes
	Common Areas Company Logo Top Banner
Contacts	Custom Jees
\$ Sales	

7. Make your new theme active by clicking on "Use Theme"

Update your Spiffy theme to enable Keap Pay to accept payments

If you use Spiffy to change the appearance of your Order Forms or Shopping Cart theme in Keap, you will need to take action to enable Keap Pay to operate through your forms.

- 1. When you update your Order Form theme **do not** choose the Mobile Responsive layout as that will break the Spiffy code.
- 2. You will then need to re-publish your Spiffy Order Form
- 3. After re-publishing those forms the Keap Pay fields will load

If you are having an issue, please reach out to support@gospiffy.com and they will be happy to assist further.
